Design Patterns in Python

Facade Design Pattern

The Facade Pattern is a structural design pattern. It provides a simplified interface to a set of other interfaces, abstractions and implementations within a system that may be full of complexity and/or tightly coupled.

Facade
sub_system_class_a sub_system_class_b sub_system_class_c
create()

SubSystemClassA		SubSystemClassB		SubSystemClassC
method()		method()		method()
